Mr. Dave Novecky
Surface Transportation Board
Attn: Docket No. FD 35952
395 E Street SW
Washington D.C. 201423-0001

Mr. Nowacky,

I previously gave an alternate route to your staff at a public meeting in Lowell, In, several month ago. This new map is the less disruption to the quality of life of the proposed site.

The proposed site was poorly done as it borders two public schools in Porter County and Lake County and several other institutions which would be negatively affect with the original request.

This map shows the least amount of obstruction as most rails are already in place.

Please feel free to respond as I realize this is at the last moment.

Yours in Good Government
