Submitter's Comments
Regarding Canadian National taking over the EJ&E lines-NO,NO,NO,No,Nooooo! More freight trains without viaducts/overpasses would cause chaos in the Western suburbs. If they want the line--make CN commit to building same (on their dime). Transporting dangerous goods thru largely residential areas is asking for disaster -- make CN promise not to send those materials over the EJ&E line. Messing up existing plans for a commuter link to the airport and city impacts far more than the commuters involved --it has impact on the carbon footprint for the entire area. Help keep the earth liveable. Just say NO!
