 Mr. Blodgett,

After reviewing the available information about the proposed Great Lakes Basin (GLB) rail project, it is my opinion that the proposed GLB project has failed to sufficiently provide documentation that supports public convenience and necessity. For the following reasons I respectfully request that the STB cease any further action on this project.

This will cut off all roads east of us, and
make go way out of ore way to get Rockton,
IL and any emergency we may need.

Why should one small group of people get
richer off the backs of good loyal American
farmers.

Why should we all loose our property values
over a useless railroad track.

The above provided information is what led me to the conclusion that the proposed GLB project is inconsistent with the public convenience and necessity. It was insufficiently vetted before starting the approval process. I respectfully request that the STB takes "no action" on this project.
