How will CN's proposed acquisition of the EJ&E impact you?

- 1) My commute to work will increase my standing on the railroad road intersection
- 2) More trains per day will decrease safety off everybody transportation
- 3) Train will increase the noise in the village school
- 4) The village is quite now - will be noisy!!!!!!
- 5) The railroad road and trains will separate us from the nearest hospital, and fire department ambulance service.
- 6) ~~We moved~~ We have moved from the city (noisy) the the quite village - do we have to move again from extensive noise?
