Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

Three months ago, this same company's train killed one boy of our neighborhood. He was 14 years old. He could have a whole lot of life in front of him. This was totally not acceptable.

There are so many kids in this area. They all walk, run, play around the houses. The railroad shouldn't even be there.

No More Train!!!

[illegible]

Joliet
