Our community should not be impacted by another country purchasing a railroad. We cannot believe how much our towns and neighborhoods will be impacted due to increase in trains and rail lines. It is absurd that this company can come through and create more pollution along with more traffic to an area that is already heavily congested. Why should this be permitted? The railway can heard from our house and the trains cause a noise disturbance. We cannot imagine the trains increasing from an average of 16 to 42 a day! If I wanted to live in an urban community I would have purchased a home in Chicago.
