Re.: U.S. Surface Transp

Board Finance

Docket No 35087

We are very much concerned regarding the Canadian National Railroad purchase of the Elgin,Joliet and Eastern Railroads.

We do not want this to happen,AT ALL. There are 133 crossings we are only asking for children getting killed and many auto accidents as well. This should not be allowed. Several schools in this 198 miles with 133 crossings, residents have grown and grown and we are only asking.for a disaster..

With the problem with oil we are going to need every asset we have to protect,not allow this change.
