I have reviewed the DEIS and found it to be alarmingly insufficient in over 16 areas of consideration. In spite of the substantial effort that went into preparing the DEIS, I have no sense that the STB authors have looked out for and protected my rights as a U.S. citizen, taxpayer and resident of a community that would be seriously impacted. I am again asking the STB not to destroy the peaceful life-style of my Village, create vehicle traffic backups, block emergency vehicles, reduce many property values and cause safety concerns beyond anything ever imagined here. NO TO E.N.
