I believe the addition of any more train traffic would greatly impact the quality of life in Barrington. Because of the convergence of 2 sets of rail tracks with 2 major state highways with the downtown area and business districts traffic congestion is already bad. Stopping traffic for more trains would increase the times of grid-lock we're already experiencing. The line in question also runs across a major school-crosswalk area at Rt 14 - an already dangerous situation. The added delays would encourage risky behavior due to major frustration.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
