I strongly object to the proposed acquisition of the EJ&E railway by the Canadian National. It will have a devastating effect on the air quality of this community, the safety of its residents, our ability to reach or be reached by medical services, and cause significant traffic congestion. Those communities that will receive relief because of the rerouting of train traffic will have the benefit of that relief for only a three year period. Then railroad traffic will be increased. CN is not offering to mitigate the negative effects this acquisition will cause. It will have a very severe negative impact on our environment and way of life.
