

A personal note... 6-22-16

Ref. Great Lake Basin Rail —

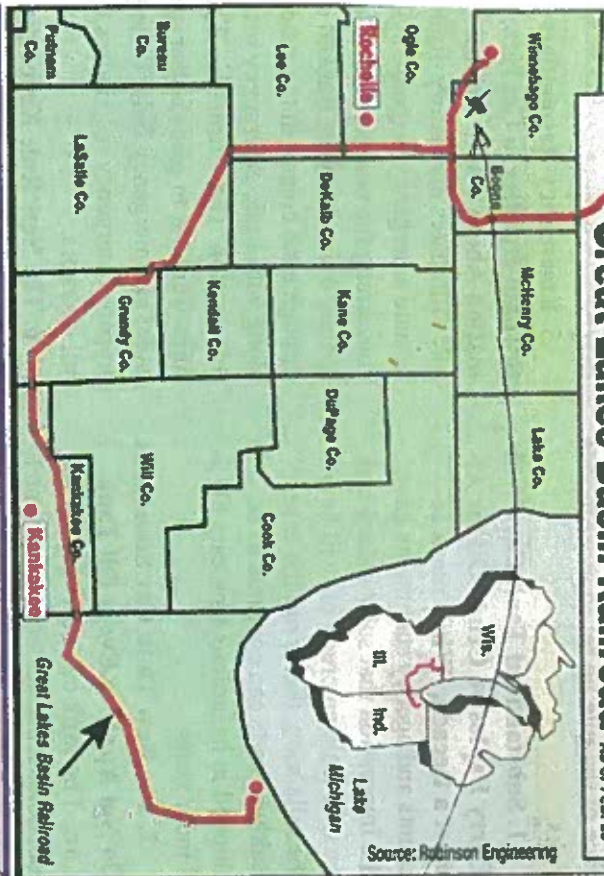

I have a rail track $1\frac{1}{2}$ miles North of my house that gets used maybe 6-8 times a day. You go another $1\frac{1}{2}$ miles North of that we have an abandon rail track, made into a bike path. We have plenty of abandon tracks running all over Northern IL. Now they want to put in another track, a half mile South of my house and eat up prime farm land doing so.

If this is suppose to be a joke, I see nothing funny about it!
