Phillip Johnson - Rep
Surface Transportation Board

Dear Phillip,
Please let us please to

stop the CN from taking over the 8 & 2
railway track thru our beautiful
community. It would destroy all
life as we know it. The school buses,

emergency vehicles, mass, local

businesses - anything that requires
travel from one part of Bountiful
to another, we've lived here beside

1972 and I can not believe our
county would allow this to

happen and destroy life as we

know it - for economic reasons
of course! There will be screaming
in our area. Just imagine. And

Bountiful and one of many
communities to be affected

Please let us to use and thank
you. (Source: Bountiful Herald)
