Please consider the long term effects this purchase will have on the quality of life for the residents of aurora. We live very close to the tracks and have 10 trains a day. If this purchase is approved we will move to over 40 trains a day which will be extremely noisy and congest the ares which is already very congested. Hazardous waste will also be transported on these cargo trains which is not something that I want to risk. The wildlife in the are could be damaged beyond repair from the excessive noise not to mention the chance of a hazaedous waster spill or accident. CN's track record is not very good when it comes to derailments nor safety. Emergency services will also have a hard time getting thorough town which is another reson I object to this purchase. If someone needs police or ambulance response quickly this will limit the chance of helpign somene who really needs it. Please do not approve this purchase. I have a five and two year old that I want to have the best quality of life and this purchase will affect their needs in the town of aurora.
