How much crude ^{JUNE 15} oil do you plan on pulling a month?

How do you plan to solve the water shed after the tracks are put in. Obviously these tracks will damage drain tiles that farmers have put in to keep their fields dry. By destroying these farmers will endure new unforeseen costs or does GLBT plan to compensate them?

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
