My husband and I strongly oppose the addition of trains running through our town of Bartlett. Already we have been inconvenienced many times due to trains stuck on tracks or very slow moving trains. We have had emergency situations that we have encountered & trains have forced us to take alternate route. We live near Nature Ridge Elem. and have 2 children attending there. If there is an emergency at the school, and trains are either stuck or moving slow this will delay emergency teams from reaching the children. The Fire Station is built on the other side of the tracks, which would prevent the fire dept from responding immediately. This could be Life Threatening.

The additional trains would be carrying toxic & hazardous materials & chemicals. This would ^{over} _{are up more air} ~~pollution!~~ ^{pollution!}

YOUR INPUT IS IMPORTANT!

Comments provided by the public help determine the scope of the environmental review.

increase the Chances of a car falling over + spilling
the hazardous contents. Our water supply would be affected.
and evacuation would be necessary. Again possibly ^{life threatening}

We moved to Bartlett with the hopes + dreams of
having a safe environment for our family to live
With the additional trains this will no longer be
a safe place to raise our family. Please consider
all of us with children or elderly that strongly oppose
the proposed Railway. No More Trains!!

Please fold, fasten, and mail. ~~No envelope necessary.~~
