

This is our little girl Hannah and you can see that she loves being on this pony. She is especially precious as we're unsure that we can have more children.

Hannah is very active in our North Barrington home and we know there will be times that we will have to take her to the hospital and the Emergency Room throughout her childhood.

The additional train traffic will definitely affect Hannah's health and safety. She starts school in just three short years. We're hopeful that is never a train-bus accident. This would devastate our community and the hundreds of families that live here.

Please don't approve the CN deal.

Krista, Hannah, and Rob Sprungman
