Dear Phillip Johnson Ball,

Writing this letter in regard to the CN Railroads. I'm a bus driver who uses the roads in the Village of New Seno, Village Moberly, Village Frankfort. With the train traffic proposed as much as 30 per day, railcars may extend 3 miles in length. With many of the schools in the area of the train tracks I can't imagine how late the buses would be every morning. How to get to the most important part is the response time for police fire? medical emergencies. Also the increase of hazardous materials be transported through our communities. Traffic congestion north? south would be awful. The increase of diesel fumes and noise. Plus with no ~~the~~ overpasses who is going to pay for them? When I buy something I have to have the money

to ~~let~~ build something.
As a taxpayer the C3N is
not something I would
vote for. Our money &
many others are against the
sale of the E's & Railroads.
When something happens
as you want to be part of
something that is not good
for the communities. And
once they were to come in
as the premier that they
make will they keep the
Once it's done it's to later
