Transcript:

I notice in the paper today that they didn't pass in Congress the Bill 6707. I love the comment from Representative Bill Schuster of Pennsylvania that the measure could hurt the Nation's rail system at a time of increasing congestion and economic difficulties. We couldn't have any more difficult economic difficulty than we are having right now in this country, let alone having the taxpayers have to pay for the CN's railroad improvements for crossings and bridges and so forth. Where are we going to come up with the money? Bill Schuster has probably never even been in Chicago. I would like someone to tell me how much has Bill Schuster and some of these other Congressmen who have turned this thing down have been donated to their re-election committee by the railroad system and the CN Railroad specifically. This is an absolute joke. It's an absolute joke and you people who are in charge could stop all this stuff from happening and we would at least, if nothing else, see to it the CN Railroad commits themselves for paying for the improvements, not the taxpayers of the United States. Our people in the past didn't die in different wars to protect a foreign government in a foreign business. We are America. This is our county. This is getting sick and tired of this kind of thing. Thank you.
