Dear Ms. Johnson-Ball

Re: Proposed purchase of the E.J.& E. Railroad by Canadian National Railway

The negative impact of this proposal on our and other communities is mind-boggling. The increase in noise and pollution has to be considered. And most of all the traffic tie-up on our main arterial roads would create a dangerous and potentially life threatening situation. Bear in mind the routes necessary for our police, fire and ambulances to be able to respond in an acceptably prompt manner.

And to expect we taxpayers to absorb the cost of future crossing improvements would be the same as telling you or any=one that I intend to kill you with poison, but first you must go to the store and purchase said poison to be used in your demise! Somehow I think you might object., as we are.

Very truly yours,

Marilyn Ozinga-Istel
