Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/28/08

Comments must be submitted by September 30, 2008.

I feel The Analysis with regard to the Village of Wayne is flawed
- Safety Issues

- Limited Police protection when train covers
Smith and Hwy Trac/Rd the will not be
protection for the side the police induty are
currently ~~not~~ covering. There may only
be one officer on duty

- Fire And Ambulance - Train Traffic will
create delay for services Current Agreements
will not cover Area. Bartlett does not cover all
of the East side

- Wayne ~~is~~ properties are all on well and septic
what happens is there is a hazardous waste spill
and water table is contaminated who replaces
property Value loss when there is no water
available what mitigation would be provided & how
quick without lawsuits would it be made

Practical Thought

- We have a ~~foreign~~ Non US Corporation purchasing
The railroad to increase profit with no positive
Economic impact for the Area Increasing risks and
Cost for the Taxpaying citizens And offering Basically
minimal mitigation

- Wayne is small but may have the biggest impact. It does not seem to be
getting due consideration

YOUR INPUT IS IMPORTANT!
