Re: FINANCE Docket # 34281
Vulcan Materials Co / Southwest Gulf Rail Road

Dear Ms. Ghosh:

I oppose the construction of
the Vulcan Quarry & Southwest Gulf Rail Road
the Quarry has the potential to
contaminate the Edwards Aquifer & surface
water. The construction of the Railroad
may involve the use of water
rights that may effect water supply
of the Cow Creek Aquifer which I depend
on for drinking water. This Aquifer is
already endangered from over development

Respectfully,

Randy F Johnson
