I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' It is the dumbest idea imaginable to spend good money to build infrastructure in order to allow mining and export of coal, when coal is the major factor in climate change. We need to STOP MINING and BURNING COAL.

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.
