Transcript:

I'm calling to complain about the acquisition of Continental, or Canadian National Railway. We're on the west side of the tracks in Shenandoah subdivision in custom homes and our elementary school is located on the other side of the tracks. We will basically not be able to get across the tracks very frequently with the proposed 42 trains per day at 2 miles in length. So by taking a problem that is in the Chicago metro area and bringing it out to the suburbs here in Plainfield, does not seem to be a solution to the train traffic. So I wanted to be sure that my comments were noted as a citizen here where we purchased our home when the train traffic was at 16 trains a day and now I'm looking to not being able to get across the tracks. So if you have any further questions, I can be reached at 815-577-6168. Thank you
