Title	Business			Dept	
Address	2628 Barley Court				
Address 2					
City	New Lenox	State	IL	Zip	60451

Transcript:

My husband and I are against this acquisition as it impacts the amount of trains and the number of trains and the time it takes for trains to get by. We've seen the trains that already do go by and they go by very, very slow and you can be stuck at a train for four or five minutes. To increase this by five or six times I think would be actually okay for Canadian National, but they need to provide money for the overpasses and from what I understand, there are not adequate funds. They need to pay for this because when we moved here, we moved here with a certain demographic, a certain situation in place with the trains and actually the trains were one of the things we looked at when we were moving. To suddenly increase it like this without any provisions, I think it is unfair and I think that it needs to be re-thought of what they need to come up with to how they are impacting these communities. Thank you very much. Bye bye
