To Whom it may concern.

I am writing to vehemently
oppose the construction of the
"Transrail" facility proposed for
the Olin Chemical site in
Wilmington, Mass.

This is a very densely
populated area with day care
centers - senior housing, 2 schools
Our road ways are already
clogged -

We have already had enough
environmental injustices in the
City of Woburn - Olin Chemical is
already a largely contaminated site!

Thanks for your negative vote

Joseph A. Conroy
