How will CN's proposed acquisition of the EJ&E impact you?

CN's proposed acquisition has absolutely no positive impacts and many negative impacts. The increased train traffic will create: 1) longer commutes + drive times. The track route runs through my drive to work, my wife's daily drives + my kids school and sporting event locations. It will affect school buses as well 2) a safety hazard - more trains more traffic, more anxious late drivers = more opportunities for accidents + mistakes 3) More noise pollution. Our townships we live close to the tracks and rumble and horn blowing at 4x the current rate (traffic) will be unbearable 4) a never ending eye-sore - ^{more} trains will only deteriorate further the suburban rural environment to a more industrial one 5) delays ~~and~~ in fire and safety vehicles = greater injuries or death 6) reduction in property values throughout our communities

Signed

✱ In summary, the acquisition will benefit CN at the expense of every household in every community that borders this rail line.

Shirley Steve Mosack
