Group/Affiliation:
Message:

I am writing about the EJ&E acquisition. I live west of RT. 30. When the trains go through now it back's up the traffic, with 30 more, i can see me tacking on at least 15 more minutes just to get into town. I also see money being taken away from Plainfield as I would most likely be shopping in Oswego seeing as there is no train problems to deal with. Also I am told it will be another town who will have to respond if Plainfield is unable to make it over the track. (all of Plainfield fire stations are on the wrong side of the tracks) The traffic is backed up enough because of the trains now, I can not see any benefit it allowing this sale to go through.
