Mr. Rhinehart -

I am among those copied on the Norfolk Southern Railway Company letter emailed to you today in connection with the proposed abandonment of a line segment in Demopolis, AL, including the removal of remaining bridge infrastructure along the line segment. I believe that you and I have spoken to each other in the past concerning other railroad abandonments in Alabama, and, in this case, I am representing NSR at the Surface Transportation Board.

If today's NSR response to the Alabama Historical Commission's written inquiry (dated July 17, 2013) regarding similar such bridges in Alabama is satisfactory, please "reply all" to this email. I have included in this thread Joshua Wayland of the STB's Office of Environmental Analysis, who is interested in determining whether NSR has supplied you with the information AHC was after. I would like to make sure through this email thread that we have "completed the loop" on historic impacts matters associated with this abandonment.

Thank you.

- Rob
