Re: STB Finance Docket No. 35087

Ms. Phillis Ball-Johnson:

I am 100 % against the CN purchase of the local railroad.

I believe it is extremely short-sited to allow this to happen without adequate infrastructure to facilitate normal flow of north and south vehicle traffic in New Lenox.

That means overpasses or underpasses to prevent extended delays for emergency vehicles and the residents of New Lenox.

Sincerely,

W. L. Wenger
