Message: I'm writing to support the Canadian National Railway's proposal to buy 198 miles of Elgin Joliet & Eastern Railway. Far too long the communities nearest to Chicago have had the unnecessary burden of overused rail because our neighbors to the West have not taken on enough rail traffic. The less dense population around the EJ&E will help reduce track congestion. There will be less emergency diversions to all 60 communities around the current CN rail lines. Additionally the motor and rail traffic near Chicago will have far less strain due to cargo that doesn't need to go through the city of Chicago properly avoiding rail congestion. Please approve the CN purchase of EJ&E.
