Docket No. FD 35952

Mr. David Navecky

Surface Transportation Board

395 E Street SW, Washington, DC 20423-0001

Stewards of the Land – GREAT LAKES BASIN RAILROAD

Will we be good stewards of the land and leave some nature for our children and grandchildren? Or will we let one man steal, destroy, and pillage the trees, creeks, wildlife, fields for his own monetary gain.

My son and his wife are excellent stewards of their land. They have taken some of their acres on E Tighe Rd in Rock County WI and planted 1500 trees, an actual hardwood forest. They care and value their land as a natural resource. And yet, one man wants to blast a freight train through their property? How is that right?

Not to mention the many mature hardwood trees that have stood the test of time, but due to his greed, he will simply destroy as many as 20-30 mature hardwoods.

We need to honor and preserve the land. Not let one man be a plague on this earth.
Shouldn't we all leave this earth in better condition than we found it?
