Jay -

Okay. Unless we hear otherwise, we will assume there is no Page 1 of 7.

Is there a timeframe for when SEA can expect to receive ARRC's "further response" on Item 5. Water Crossings and the "detailed description and analysis of a modified Mac East Variant route?"

Thanks,

Dave

Dave,

Perhaps Brian can explain this, but the file I have starts with page 2 of 7. There is no page 1. So perhaps it's just a page numbering error.

If you have any additional questions, don't hesitate to email or call.

Regards,

Jay

Jay -

Thanks for the letter and attachments.

One initial question: In the supplemental file "Earthwork for Trail Grade Seps.pdf," Sheet No. 1 of 7 is missing (see attached). Is this an inadvertent omission, or was it purposely left out.?

Thanks,

Dave
