Transcript:

I am calling in reference to docket #35087 to express my great concern about what will happen in our community if the Canaian National Railroad is allowed to buy up the EJ & E. The devastation to us in terms of being locked in by freight trains and trying to get to hospitals or emergency care or simply in and out of the community will be so great because of the configuration of the railroads and highways. We are just left with no good options. I hope that you will take this into strong consideration and reject a foreign governments attempt to make profit at the expense of US citizens. Thank you.
