Dave Navecky  
Surface Transportation Board  
ATTN: Docket No FD 35952  
395 E Street SW  
Washington , DC 20423-0001

Included are Petitions signed by 1100 persons that have serious concerns about the proposed railroad tracks for the stated reasons: Loss of an irreplaceable natural resource of farmland; Safety concerns caused by train speed, road closings, derailments, and the causation of additional travel time needed for emergency First Responders by added railroad crossings; and Destruction of wetlands, wildlife habitat, air and water pollution, and quality of life for all who will have the trains running thru their property or in close proximity to the tracks.

We trust that you will consider these factors as you proceed with the review of the GLB proposal.

Sincerely,

Joan M. Waite  
6414 State RD 140

# Petition to:

## STOP Great Lakes Basin Transportation, Inc. from developing a Railroad Track in Rock County, Wisconsin.

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions.
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

Mr. David Navecky:

**RE: Docket # FD 35952 Great Lakes Basin Railroad: Request for extension of time to file comments for this Proposal**

Many in the affected area have a grave concern about how quickly this process has been announced with meetings scheduled and comments required in such a short period of time. The March 18 notification of this proposal with public scoping meetings scheduled from April 11 through April 21<sup>st</sup> with comments due May 16, 2016 is a very aggressive time frame. This timeframe is especially troublesome for an issue that is not critical and not in the public's best interest. Considering the scope, complexity and impact of this proposal, this timeframe does not give much time for the affected residents to do their due diligence and research for such a major undertaking.

This time frame is especially troubling as it comes at a time when the affected parties are starting one of the busiest times of their year, the planting season. If you know anything about farming, planting has to be done quickly as the weather permits. If local residents take time to deal with this issue and lose their planting season, it negatively affects the meager profits they make in even a decent year. We are talking about the people who provide the food, milk and nourishment for the families of our country.

I hereby respectfully request that the date for filing comments be extended for 90 days from May 16, 2016 until August 16, 2016? This request is very reasonable in light of the extenuating circumstances.

Very Truly Yours,

Name/ Title if Appropriate

---

**Petition to:**  
**STOP Great Lakes Basin Transportation, Inc. from developing a  
Railroad Track in Rock County, Wisconsin.**

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (aprox. 550 acres in Rock Co.)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

**Petition to:**  
**STOP Great Lakes Basin Transportation, Inc. from developing a**  
**Railroad Track in Rock County, Wisconsin.**

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (Approx. 550 Acres in Rock Co.)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

**Petition to:**  
**STOP Great Lakes Basin Transportation, Inc. from developing a**  
**Railroad Track in Rock County, Wisconsin.**

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (Aprox 550 Acres in Rock Co.)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

This petition will be sent to Dave Navecky, Surface Transportation Board, 395 E Street SW, Washington, DC 20423-0001, Docket No. FD 35952 and may be sent to other interested parties. Please Return to Rock Against the Rail, P.O. Box 455, Clinton, WI 53525 by May 5<sup>th</sup>, or drop off at Stateline Realty, 207 Allen St,

**Petition to:**  
**STOP Great Lakes Basin Transportation, Inc. from developing a**  
**Railroad Track in Rock County, Wisconsin.**

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (approx. 550 acres in Rock Co.)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

# Petition to:

## STOP Great Lakes Basin Transportation, Inc. from developing a Railroad Track in Rock County, Wisconsin.

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (aprox. 550 acres in Rock Co.)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

**Petition to:**  
**STOP Great Lakes Basin Transportation, Inc. from developing a**  
**Railroad Track in Rock County, Wisconsin.**

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (APPROXIMATELY 550 ACRES IN ROCK COUNTY)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

# Petition to:

## STOP Great Lakes Basin Transportation, Inc. from developing a Railroad Track in Rock County, Wisconsin.

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (approx. 550 acres in Rock Co.)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

This petition will be sent to Dave Navecky, Surface Transportation Board, 395 E Street SW, Washington, DC 20423-0001, Docket No. FD 35952 and may be sent to other interested parties. Please Return to Rock Against the Rail, P.O. Box 455, Clinton, WI 53525 by May 5<sup>th</sup>, or drop off at Stateline Realty, 207 Allen St,

**Petition to:**  
**STOP Great Lakes Basin Transportation, Inc. from developing a**  
**Railroad Track in Rock County, Wisconsin.**

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions.
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

## STOP Great Lakes Basin Transportation, Inc. from developing a Railroad Track in Rock County, Wisconsin.

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (APPROXIMATELY 550 ACRES IN ROCK COUNTY)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

---

**Mr. David Navecky:**

**RE: Docket # FD 35952 Great Lakes Basin Railroad: Request for extension of time to file comments for this Proposal**

Many in the affected area have a grave concern about how quickly this process has been announced with meetings scheduled and comments required in such a short period of time. The March 18 notification of this proposal with public scoping meetings scheduled from April 11 through April 21<sup>st</sup> with comments due May 16, 2016 is a very aggressive time frame. This timeframe is especially troublesome for an issue that is not critical and not in the public's best interest. Considering the scope, complexity and impact of this proposal, this timeframe does not give much time for the affected residents to do their due diligence and research for such a major undertaking.

This time frame is especially troubling as it comes at a time when the affected parties are starting one of the busiest times of their year, the planting season. If you know anything about farming, planting has to be done quickly as the weather permits. If local residents take time to deal with this issue and lose their planting season, it negatively affects the meager profits they make in even a decent year. We are talking about the people who provide the food, milk and nourishment for the families of our country.

I hereby respectfully request that the date for filing comments be extended for 90 days from May 16, 2016 until August 16, 2016? This request is very reasonable in light of the extenuating circumstances.

Very Truly Yours,

Name/ Title if Appropriate

---

**Government agencies should send a formal letter to:**

The Honorable Daniel R. Elliott III  
Chairman, United States Surface Transportation Board  
395 E Street, SW  
Washington, DC 20423-0001

**Petition to:**  
**STOP Great Lakes Basin Transportation, Inc. from developing a  
Railroad Track in Rock County, Wisconsin.**

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions.
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

---

Mr. David Navecky:

**RE: Docket # FD 35952 Great Lakes Basin Railroad: Request for extension of time to file comments for this Proposal**

Many in the affected area have a grave concern about how quickly this process has been announced with meetings scheduled and comments required in such a short period of time. The March 18 notification of this proposal with public scoping meetings scheduled from April 11 through April 21<sup>st</sup> with comments due May 16, 2016 is a very aggressive time frame. This timeframe is especially troublesome for an issue that is not critical and not in the public's best interest. Considering the scope, complexity and impact of this proposal, this timeframe does not give much time for the affected residents to do their due diligence and research for such a major undertaking.

This time frame is especially troubling as it comes at a time when the affected parties are starting one of the busiest times of their year, the planting season. If you know anything about farming, planting has to be done quickly as the weather permits. If local residents take time to deal with this issue and lose their planting season, it negatively affects the meager profits they make in even a decent year. We are talking about the people who provide the food, milk and nourishment for the families of our country.

I hereby respectfully request that the date for filing comments be extended for 90 days from May 16, 2016 until August 16, 2016? This request is very reasonable in light of the extenuating circumstances.

Very Truly Yours,

Name/ Title if Appropriate

---

Government agencies should send a formal letter to:

The Honorable Daniel R. Elliott III  
Chairman, United States Surface Transportation Board

**Petition to:**  
**STOP Great Lakes Basin Transportation, Inc. from developing a**  
**Railroad Track in Rock County, Wisconsin.**

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (approx. 550 acres in Rock Co.)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

# Petition to:

## STOP Great Lakes Basin Transportation, Inc. from developing a Railroad Track in Rock County, Wisconsin.

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (APROXIMATELY 550 ACRES IN ROCK COUNTY)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

**Mr. David Navecky:**

**RE: Docket # FD 35952 Great Lakes Basin Railroad: Request for extension of time to file comments for this Proposal**

Many in the affected area have a grave concern about how quickly this process has been announced with meetings scheduled and comments required in such a short period of time. The March 18 notification of this proposal with public scoping meetings scheduled from April 11 through April 21<sup>st</sup> with comments due May 16, 2016 is a very aggressive time frame. This timeframe is especially troublesome for an issue that is not critical and not in the public's best interest. Considering the scope, complexity and impact of this proposal, this timeframe does not give much time for the affected residents to do their due diligence and research for such a major undertaking.

This time frame is especially troubling as it comes at a time when the affected parties are starting one of the busiest times of their year, the planting season. If you know anything about farming, planting has to be done quickly as the weather permits. If local residents take time to deal with this issue and lose their planting season, it negatively affects the meager profits they make in even a decent year. We are talking about the people who provide the food, milk and nourishment for the families of our country.

I hereby respectfully request that the date for filing comments be extended for 90 days from May 16, 2016 until August 16, 2016? This request is very reasonable in light of the extenuating circumstances.

Very Truly Yours,

Name/ Title if Appropriate

---

**Petition to:**  
**STOP Great Lakes Basin Transportation, Inc. from developing a**  
**Railroad Track in Rock County, Wisconsin.**

We, the undersigned, citizens of Rock County are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (APPROXIMATELY 550 ACRES IN ROCK COUNTY)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.

## STOP Great Lakes Basin Transportation, Inc. from developing a Railroad Track in Rock County, Wisconsin.

We, the undersigned, citizens of Wisconsin are opposed to the proposed railroad for the following reasons:

1. Loss of 6700+ acres of productive farmland for the right of way with additional acreage rendered unusable because of land division, soil compaction and access restrictions. (APPROXIMATELY 550 ACRES IN ROCK COUNTY)
2. Safety concerns because of train speed, road closings, derailments, and additional time needed for emergency First Responders.
3. Destruction of wetlands and wildlife habitat, noise, air and water pollution and quality of life for peaceful outdoor enjoyment.
