

Dear Mr. Blackgeet

I am writing in regards to the Great Lakes
Basin Railroad.

I have always been in favor in advancements
of road construction, new highways and railways, as
long as they benefit the community, town, city and
state. Unfortunately the G.L.B. railroad benefits
NO ONE except Mr. Patton

My concerns include, highway 75,
emergency, personal, school bus routes, the environ-
ment, Indian burial sites, the wetlands, bird and
wildlife sanctuaries and homes that are 100 yrs
old or older that have limestone foundations.
All of these things are extremely troublesome.

I am very much OPPOSED to the
G.L.B. Railroad.

Thank you

Jeff + Adella Knight
