I'm calling in regard to the CN Railway. It seems to me that this community was here long before CN wanted to use it for the purpose of going around Chicago. And also, since nobody seems to find an agreement, why don't they divide it equally so that both sections, the people that have it now, and if we're going to have to get this, have an equal number of trains going through their community. But I don't approve at all of a foreign nation coming in here and taking over our train lines to do whatever they think they want to do with it. Let them go through Canada. Thank you.
