What comments do you have about the Draft Environmental Impact Statement?

In reference to speaking at the Big Lake school meeting I would like to add

I am in support of the rail & Port Activity - I have attended a lot of the meetings. I know it was mentioned of persons not getting material. In the mailing people were asked to check if they wanted to receive material - I think they just miss some of these spaces. I have received a lot of info. thank you. I do not live where the rail will have immediate impact but I do know the Houston RT is a

grave mistake - please do not have a rail go to
that area - It can not be replaced.

I know willow is the best but there are some
scared lands there

good luck & may God help you in your decision by
guiding you to the best rail Extension path not by
cost but by heart
