Commenter: Derf Johnson

Organization: Montana Environmental Information Center

State: Montana

Agency: Surface Transportation Board

Initiative: Tongue River Railroad

Submission Text

See the attached comment letter and petition.

**Clean & Healthful.
It's your right, our mission.**

September 23, 2015

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC, 20423
ATTN: Office of Environmental Analysis
Docket No. 30186

Dear Mr. Blodgett,

Attached to this letter are the names of approximately 1,210 citizens from across the nation, but primarily residents of Montana, who are in opposition to the proposed Tongue River Railroad and urge you to select the "No Action Alternative." The vast majority of these comments come from Montana citizens who will be directly impacted by the railroad's construction in the form of increased coal train traffic and its associated public health and social impacts.

Specifically, the undersigned citizens urge against the construction of the railroad under the following language:

"I oppose construction of the Tongue River Railroad, and urge the STB to take the "no action alternative." The railroad proposes to haul coal from the speculative Otter Creek mine at a time when coal markets are crumbling both domestically and around the world. The Otter Creek mine is clearly a connected impact of the railroad's construction. Otter Creek is the largest proposed coal mine in the U.S., and if its 1.3 billion tons of coal are mined, it would contribute to climate change for the next 55 years. The draft EIS wrongly assumes that there is a domestic coal market for high-sodium Otter Creek coal, and wrongly assumes that there will be no train traffic impacts from construction of a rail line that could generate 18-26 additional coal trains per day traveling on existing rail lines.

Rail communities between the proposed railroad and Pacific Northwest export terminals would suffer the consequences of dramatically increased coal train traffic, including slashed property values, increased traffic congestion, safety hazards, and air pollution from both diesel exhaust and fugitive coal dust. The Tongue River Railroad and resulting coal exports only benefit private coal companies and Asian energy users, while hurting those of us who live along the rail line. Please choose the "no action alternative" for the Tongue River Railroad."

Thank you for your consideration. As you can see, there is overwhelming opposition to the Tongue River Railroad in Montana. We look forward to your decision to choose the "No Action Alternative" and to reject the proposed Tongue River Railroad.

Regards,

Derf Johnson
Clean Water Program Director & Staff Attorney
