I didnt know if I confirmed
our interest to consult on the
tongue river project. So I am
letting you know now. We
have been having technical
difficulties with our internet
for two weeks and have been
back up and running for 2
whole days!
Anyway just FYI.
Thanks

Okay. That explains the packet
being returned. We'll update
your information.

I figured something like this
must have happened. Let me
know, when you can, if you
want to consult on the Tongue
River Project.

Also we received letters from
DM&E and Forest Service
objecting to your NR
determinations for the stone
circle sites. It might be good to
have the tribes send a letter to
the WY SHPO concurring with
our NR eligibility
determinations. Call me when
you get a chance :
202-245-0293.

Subject: Hello - Tongue River Project

Hi Dianne:

Say, we just received the packet (returned to sender) that we sent you requesting your participation as a consulting party for the Tongue River Railroad Project. I have attached PDF files of these documents below as I had thought that you would want to participate in this project and assume that the packet was returned in error. As you may know, the current alignment would impact the Wolf Mountain Battlefield Site, recently designated an NHL, among other things. As a result, we have reopened the Programmatic Agreement (PA) for revision. This is all well explained in the attached letter. Attached is a copy of our letter to you (EO-1560), the original PA and the PA Extension which needed to be signed in order to extend the PA for a year as we work to revise the original PA.

Please call me if you have any questions (202-245-0293).

Hope you are well and Happy New Year!

Cathy
