Re: Murray-Calloway Economic Development Corporation
- Exempt Abandonment -
In Marshall and Calloway Counties, KY
STB Docket No. AB-1033 (X)

Dear Secretary Quinlan:

The Board's decision served May 21, 2009, imposed certain conditions (conditions 3(a) - (c)) pending completion of the Section 106 historic review process.

Enclosed is a letter from the Kentucky State Historic Preservation Officer ("SHPO") dated May 18, 2009, concluding that the proposed abandonment and salvage of the track and ties will have "no adverse effect" on historic properties. The Applicant will consult with the SHPO further before taking any actions that would impact the structures on the abandoned line that are over 50 years of age.

Based on the enclosed letter, the Applicant requests that the Board remove conditions 3(a) - (c) so that Applicant can promptly proceed with the proposed salvage of the tracks and ties, subject to consultation with the National Geodetic Survey and the Army Corps of Engineers.

Respectfully,

Eric M. Hocky

Re: Proposed Rail Line Abandonment by the Murray-Calloway Economic Development Corporation in Marshall and Calloway Counties, Kentucky (STB Docket No. AB 1033 (X))

Dear Mr. Hocky:

Thank you for resubmitting information on the above referenced project to the State Historic Preservation Office on behalf of your client, the Murray-Calloway Economic Development Corporation. It is understood that the Murray-Calloway Economic Development Corporation (EDC) intends to abandon 7.34-miles of rail line in Marshall and Calloway Counties. The area of potential effect (APE) for this undertaking has been proposed as the existing right-of-way. Given the nature of the project, we agree that the APE as proposed is appropriate. It is further understood that the salvage work proposed by the applicant will be surface work only and will not disturb subsurface resources. No potential to affect archaeological sites therefore exists. With regard to above-ground, cultural historic properties, it is understood that no less than 20 structures over 50 years of age (bridges and culverts) are located along the proposed line abandonment. According to the applicant, these structures will remain in their current state. While some or all of these bridges and culverts have the potential for consideration to the National Register of Historic Places, we do not believe that the undertaking as proposed will impact them in an adverse way.

It is therefore the determination of this office that the project as proposed will have **No Adverse Effect** on Historic Properties. Provided that no changes to the project are made that impact structures over 50 years of age, no further consultation with this office will be required. If you have questions regarding these comments, please contact Craig Potts of my staff at (502) 564-7005, extension 123.

Sincerely,

Mark Dennen
Executive Director and
State Historic Preservation Officer

Cc: Brad Davis (Purchase Area Development District)
