Classification: UNCLASSIFIED

Caveats: NONE

Hi Richard, Chris and I were in agreement that USACE will not have any additional comments.

Thanks

Subject: [EXTERNAL] RE: STB Tongue River Railroad Project, Section 106 Programmatic Agreement, comments requested

Hi Todd, Brian, and Chris,

This e-mail is a follow up to some of the conversations we've had or voice mails left for you over the last couple of weeks. Attached is the version of the Section 106 Programmatic Agreement (PA) that was attached to the Draft Environmental Impact Statement (DEIS) for the Tongue River Railroad Project. The comment period for the DEIS closes on September 23.

Could you let us know if the USACE is planning to provide any further comments on the draft PA? If you don't plan to comment, we'll just circle back to you in October after we've had a chance to review all the comments received on the PA, revise it, and recirculate the revised PA.

If you do plan to make comments, it would be greatly appreciated if you could get them back to us as soon as you are ready with them. The earlier you can get them to us before the September 23 deadline the better.

Thank you so much for your participation and cooperation.

Rick

(BTW, ICF is STB's independent third party contractor working on this project.)
