communities that already absorb multiple trains thru their towns do not cross thru the heart of their villages. We are not designed for heavy train traffic. 20+ trains a day would destroy this community.

As usual, big corporation is looking to make \$\$ rather than care about the community quality of life for residents who didn't move to Barrington to be surrounded & locked in by train traffic.

I live in the heart of the village & already can't get thru town at certain times of the day.

DON'T DESTROY OUR TOWN.

Thank You.
