Message:

I am writing to strongly oppose the railway acquisition of EJ&E Railroad by CN. The railroad tracks for EJ&E are literally in our backyard. If the acquisition takes place, there will be little if no possibility that we will ever sell our house one day. The noise factor is another issue. If the proposed number of trains going through our backyard is increased to 30-40 a day, we can plan on never having an open window again, never listening to each other talk or even talking on the phone. There is always an attraction to railroad tracks by kids. Even though they are told to stay away, they seem to be drawn to railroad tracks. The danger of death to these kids increases greatly if the amount of trains is increased.

Please do not allow the acquisition to take place. Thank you.
