Comment Form for the Surface Transportation Board

Date: FEBRUARY 11, 2008

Name: SANDRA SIMONIS

Address: 1304 EDINGTON

City: MUNDELEIN State: IL Zip: 60060

Phone: 847-566-4698

E-Mail: samsimonis@comcast.net

How will CN's proposed acquisition of the EJ&E impact you?

Increased train traffic is inconvenient
increased train traffic poses dangers to pedestrians
Cars waiting for trains waste vast quantities of fuel
The roads I have observed crossing railroad tracks
are in poor repair now - increased train traffic
would exacerbate an already bad situation.
When I drive to work, I do not cross train tracks
but am frequently caught in backed up traffic
from trains (especially ones stopped on the tracks)
If we increase train traffic, no one will be able to get
anywhere!
School Buses would NEVER make it to school!

What benefit is there to this proposal? Usually a challenge of
this magnitude would be offset by some
benefit - but I see none.

I am seriously concerned with the effect on
emergency traffic - police,
fire EMS. Increased train
traffic would wreak havoc
with that -

Signed

Sandra Simonis
