

To Phyllis Johnson - Ball

I am writing to let you know I am opposed to the sale of the E&F railroad right-of-way to the C.N.R. Traffic in our area is already backed up in rush hour times. There are two underpasses to the railroad, now, which is not enough to prevent backing up traffic now, & even more traffic funnel in, because of increased blockading of the remaining crossing, traffic will be at a standstill here at rush hour.

Besides slowing down commuters, the emergency vehicles and the school buses will need longer time getting to their destination.

While I know I was by a railroad track when I bought this property over thirty years ago, I also know what the railroad traffic would be, what I have now, I can live with. I can not imagine what another twenty or more trains will mean to our home.

For all these reasons, I ask that the sale of the E&F to CN NOT be made.

Thank you for your consideration.

Gail Paul
