Message:

Board: the proposed Great Lakes Basin rail line system will pass thru a portion of family farm land i own in Vienna Twp, Grundy County, IL. I strongly oppose the GLB and ask you to consider 1) the loss of some of the richest farm land in the country 2) damage to the waterways, erosion of land and disruption of wildlife and farm animals 3) the GLB will negatively affect the social farm community life that has been a cornerstone of our country. I ask you to seriously consider rejecting the GLB.
Sincerely. Benita Garner
