Here's a second piece of environmental correspondence that landed in my "Information Quality" mail box.
I wonder if these are two random errors, or there is a glitch in the on-line process.

My apologies to my community for not attending the public meeting held last Monday, 2/11. I definitely oppose the potential purchase of the EJ&E rail line by the CN Railroad that runs through Lake Zurich. The potential impact that this would bring is so opposite to what the community has worked to accomplish. The objections far surpass the positives. We do not need this, it does not benefit our community in anyway.

Thank you for listening to me.
