

7-13-2016

To: Dave Narecky and Surface
Transportation Board

Docket # FD 35952

I serve Rock County as
the USDA Farm Service Agency
minority Advisor.

I believe the GLB railline
is targeting low income and
minority rural residents.

I am a minority and low
income landowner.

The GLB railroad is proposing
to build a fire track
staging yard through 24 acres
of my farm.

I believe one half of the
farmland in Rock County the
GLB railroad is proposing
to build through is owned

by minorities.

On behalf of Rock County minorities I would like the Surface Transportation Board to research how many low income minority landowners this proposed railroad would affect.

The U.S. Dept. of Transportation order 1510.2 prohibits transportation projects from unjustly targeting minority and low income populations.

Thank you,

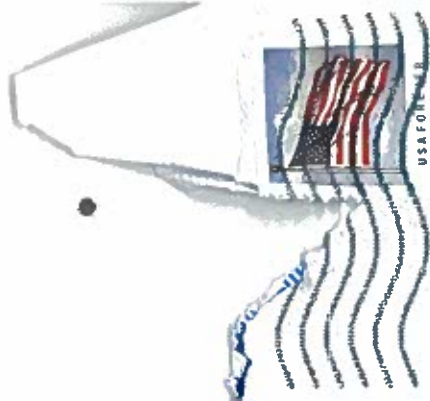

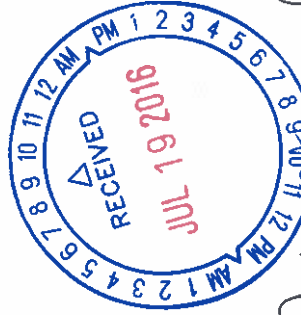

Jacque Mcnall
