Re: Century Trace Homeowners Association

Dear Mr. Blodgett:

As the attorneys for the Century Trace Homeowners Association, we have been requested by the Association to contact you regarding the potential EJ&E train sale that will potentially negatively impact the 502 homeowners who reside in this Association. Many members of the Association plan on filing their comments and concerns with the STB in order to voice their concerns regarding the negative impact the sale of the train will have on their community and homes.

It is our understanding the STB has recently extended its deadline to allow comments to be filed with its office to February 15, 2008. However, the Association members are also requesting that a Public Meeting be held in the Naperville/Plainfield area to listen to the homeowners and explain in detail the acquisition, construction and increased operations the sale of the train will have on the community. Accordingly, we are requesting the STB to contact us with a date, time and location a Public Meeting will take place to address these issues.

We appreciate your attention to this matter.

Sincerely,

Pamela J. Park
