Re: Draft Archeological Survey Eagle Pass Railroad Project, Maverick County, Texas

Dear Ms. Glidden:

As part of the ongoing environmental report process for the Eagle Pass Railroad's proposed New Location Railroad Line Project, Cox|McLain Environmental Consulting, Inc. (part of the Poznecki-Camarillo, Inc. environmental team) completed an archeological survey and report of the proposed project's study area. Upon the survey's completion, the Archeological Report was forwarded to the law office of Steptoe & Johnson LLP, located in Washington D.C. for review. The report was reviewed by Steptoe & Johnson LLP representatives Mr. David H. Coburn and Mr. Joshua Runyan who in turn forwarded their comments to Poznecki-Camarillo, Inc. for inclusion. Per the instruction of Mr. Runyan, we are sending you a copy of this updated Archeological Report for your review and coordination. A link to the report will be provided by email. Upon completion of your review, please return your comments to me for inclusion into the final Archeological Report for the Eagle Pass Railroad's proposed New Location Railroad Line Project.

If you have any questions or require additional project information, please contact me at (210) 349-3273. We are excited to work with you and your office on this important project!

Sincerely,

Maria Elena "Lena" Camarillo
Director of Environmental Planning
